

EDUCATION

Grand Valley State University | Allendale, MI

Bachelor of Science in Information Technology | Expected Graduation: 2027

- **GPA:** 3.642
- **Relevant Coursework:** Database Management, Cloud Computing, Pervasive Computing, Data Analysis

TECHNICAL SKILLS

- **AI & Automation:** Microsoft Copilot Studio, Power Automate AI Workflows, LLM-Assisted Scripting
- **Operating Systems:** Windows 10/11, macOS, Linux (Mint, Ubuntu, AlmaLinux, Alpine), LineageOS/Android
- **Systems Administration:** PowerShell, Windows Batch, Software Deployment, Active Directory, Hardware & Network Diagnostics
- **Programming & Database:** Python (Pandas, OpenPyXL, Tkinter), SQL / Microsoft SSMS, Ladder Logic, HMI Design, Git

WORK EXPERIENCE

Fishbeck | Grand Rapids, MI

IT Support & Systems Automation Intern | May 2026 – Present

- Administer corporate end-user support, software deployments, and system configurations.
- Architect Power Automate flows integrated with Copilot Studio AI agents to streamline internal notification and file workflows.
- Develop custom Python utilities (Pandas, OpenPyXL) and PowerShell scripts to automate Excel data processing and system tasks.

Grand Valley State University

Student IT Help Desk Technician | September 2025 – May 2026

- Provided tier-1 and tier-2 technical support, hardware repair, and network troubleshooting for campus staff and students[cite: 1].
- Executed OS deployments, network connectivity configurations, and user account management[cite: 1].

Mission Design & Automation | Zeeland, MI[cite: 1]

Controls Engineering Intern | May 2025 – August 2025[cite: 1]

- Programmed industrial control systems using Ladder Logic and designed interactive HMI interfaces[cite: 1].
- Managed SQL database consolidation and structured data migration using Microsoft SSMS[cite: 1].

Vander Molen Greenhouses | Hudsonville, MI[cite: 1]

General Laborer | January 2020 – May 2025[cite: 1]

- **5-Year Tenure:** Managed plant logistics, operating forklifts and heavy machinery in high-volume operations[cite: 1].

TECHNICAL PROJECTS & ACTIVITIES

- **Custom OS & Systems Lab:** Flashed custom Android ROMs (LineageOS/Magisk), deployed Alpine Linux, and built multi-OS virtual machine testing environments
- **Activities & Community:** Middle School Student Council (2017–2018) | Middle/High School Band (2016–2023)
