EDUCATION

Grand Valley State University | Allendale, MI | GPA: 3.642
Bachelor of Science in Information Technology — Expected Graduation: 2027

- Relevant coursework: Database Management, Cloud Computing, Pervasive Computing, Data Analysis

TECHNICAL SKILLS

- **Automation and programming:** Microsoft Copilot Studio, Power Automate, Python, PowerShell, Git
- **Systems and Support:** Windows, macOS, Linux, Android, Active Directory, software deployment, hardware and network troubleshooting
- **Databases and Controls:** SQL, Microsoft SSMS, Ladder Logic, HMI design

WORK EXPERIENCE

Fishbeck | Grand Rapids, MI — May 2026 – August 2026
IT Support & Systems Automation Intern

- Provided end-user support, deployed software using Tanium, and configured corporate systems.
- Built Power Automate flows with Copilot Studio agents for internal notifications and file workflows.
- Developed Python utilities and PowerShell scripts to automate Excel data processing and system tasks.

Grand Valley State University | Allendale, Michigan
Student IT Help Desk Technician — September 2025 – May 2026; August 2026 – Present

- Provide tier-1 technical support, troubleshoot hardware and network issues, and manage user accounts for campus staff and students.

Mission Design & Automation | Zeeland, MI
Controls Engineering Intern — May 2025 – August 2025

- Programmed industrial controls using Ladder Logic and designed HMI interfaces.
- Consolidated SQL databases and migrated data using Microsoft SSMS.

Vander Molen Greenhouses | Hudsonville, MI
General Laborer — January 2020 - May 2025

- Handled plant logistics and operated forklifts and heavy machinery in high-volume operations.

TECHNICAL PROJECTS

Legacy Windows Remote Administration:

- Established macOS-to-Windows XP RDP access using Nmap and Netcat diagnostics, firewall configuration, and troubleshooting of remote-session audio.

Self-Hosted Portfolio Assistant:

- Connected a website chatbot to a locally hosted AI model through a Linux server and Tailscale; configured automatic startup, connection recovery, and request limits.
